**Kurokami Fubuki**, also known by her Minecraft username Kurokami\_FBK, or just by Kurokami, Fubuki, or FBK is Minecraft [LARP](#) first introduced in 2025. They are believed to be a successor to the LARP [Shirakami Fubuki](#), the character she serves as the opposite of.

Birth

Personality

Kurokami has a very chaotic personality, with qualities akin to a supervillain, but rarely does evil things. It's either because she would rather run her mouth than face the repercussions of evil actions or because she is too tired to do evil things at all times and would rather expand her Minecraft base or build other things.
