Mun Twitter Wiki (MTW) is a free wiki that chronicles information from [Cumball](#), [cunny.zone](#), [cunny.taxi](#) and [more](#) created, moderated, and funded by [cab](#). Any content in namespaces is other content not related to Cumball, cunny.zone or cunny.taxi, and to write new unrelated content a new namespace must be created.

MTW is planned to be supported indefinitely and, if not, it will be archived and closed after a wide announcement. Plans are underway to move MTW eventually to its own standalone website [muntwitter.wiki](#). If this plan goes through, all current wiki links will redirect to their corresponding links on [muntwitter.wiki](#)

Rules

See: [Rules](#) MTW has minimal rules, mostly because it's moderated by [cunny.taxi](#) and MTW's creator [cab](#). Due to its nature as a personal passion project, it's in [cab](#)'s best interest to reduce legal issues that may arise with copyright or illegal content, as such, there are rules against both.

Origin

MTW is the direct successor to [Mun Twitter Wiki \(Fandom\)](#) and serves as the definitive version of it as well as an official upgrade, featuring more than just information from Cumball. The new MTW was created on March 14, 2026 on [cab](#)'s personal website and host of other services [cunny.taxi](#) after discussions between [cab](#) and his associates.
