The old **Mun Twitter Wiki** hosted on **Fandom** was the first wiki that chronicled the events and users of Cumball, Filled With Nothing, iCunny.com, as well as Cumball's sister servers, the users present in those, and other related things.

Unlike the current wiki hosted on [cunny.taxi](#), this wiki was made strictly for the users of Cumball, the users of sister or related servers, and fans of Filled With Nothing, and consisted of sporadic sources, poor formatting, incomplete pages, and many more errors. These past errors are to be largely reduced in this wiki.

Origin

Mun Twitter Wiki was created on January 3, 2022 at 6:04 PST. It was created to document events, users, memes, and other things present in Cumball, Filled With Nothing's web presence, and Cumball's sister servers. It was very active in 2022 before dropping in activity and eventually being deleted automatically by Fandom for inactivity. Many users contributed to the wiki, including but not limited to: Ekho, SkersMazyoors, Amjad, Kroatische Doge, Sniperfoxeh, Scotchy, SEXHAVVER41, HuaLeBluski, FilledWithEverything, and many more anonymous users who chose to edit without an account.

The wiki was frequently used as a source of information about Cumball for new users of the Discord server, but it would, along with the steady flow of new users into the server, slowly fade away as the years went on. The wiki is now deleted and going to the link it once occupied brings up Fandom's this wiki does not exist page. The link is unprotected and allows for anyone to attempt to recreate the wiki, although it would be a fruitless endeavor as Fandom is basically a spam website that shouldn't be enabled by the presence of useful information.
