Senkno is a Discord user, [Cumball](#) member, and former [roleplayer](#) who once roleplayed as Senko from The Helpful Fox Senko-san, and keeps a still from the anime's title character as a memento. He is known for being a disrespectful degenerate who lusts after slightly-female users online, but is known to be connected to LARPs and their groups, most notably [ICO](#), of which he was the major source of information for Cumball members.
